Shripaad Koduri
AI automation & web builds.

I build systems that answer leads in seconds, book the meetings and follow up on their own, plus the websites and apps they plug into. Everything in this folder is a real system I designed and built end to end.

01 · AI AUTOMATION (N8N)

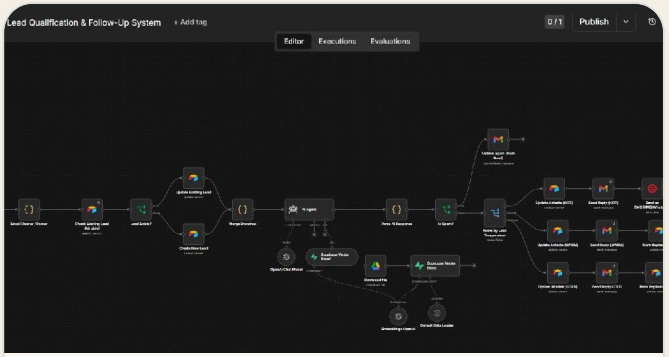

Systems that run themselves

WhatsApp AI Agent for Real Estate

Replies to every WhatsApp lead in seconds, answers from the business's own info, qualifies (budget, location, timeline), scores Hot/Warm/Cold, books site visits into Google Calendar, logs to Sheets/CRM and follows up automatically.

n8n · WhatsApp Cloud API · OpenAI · Google Calendar · Sheets

Email Lead Qualification & Follow-up

Reads every new enquiry, filters spam, uses a RAG knowledge base to draft the right reply, routes Hot/Warm/Cold, updates Airtable and runs timed follow-ups until the lead replies.

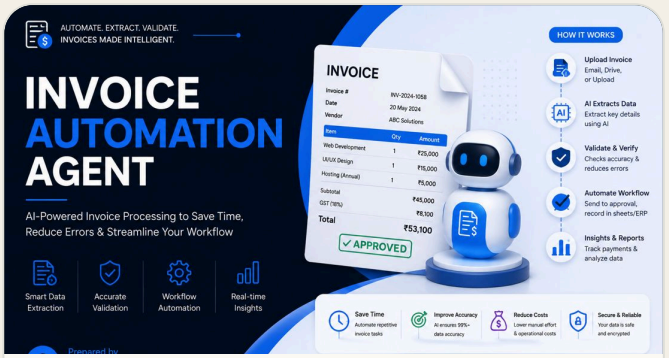

n8n · Gmail · OpenAI · Supabase vectors · Airtable

AI Voice Receptionist

Answers calls, handles FAQs, books or reschedules appointments, transfers to a human when needed and sends the front desk a summary of every call.

Vapi · Twilio · n8n · Google Calendar

Invoice & Document Automation

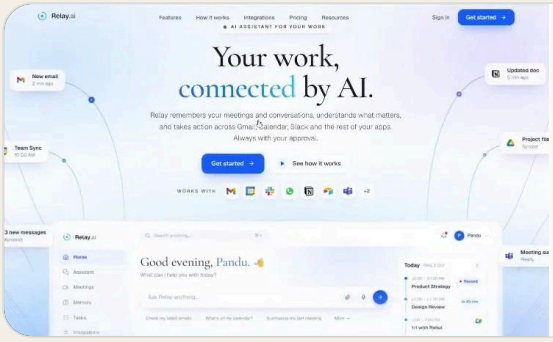

Pulls invoices from email/Drive, extracts the fields with AI, validates them and pushes clean rows into Sheets/accounting, with exceptions flagged for review.

n8n · Gmail · Drive · OpenAI · Google Sheets

Full case studies with screenshots of each workflow: **"Automation Solutions - full case studies.pdf"** in folder 01.

02 · WEB APPS & WEBSITES

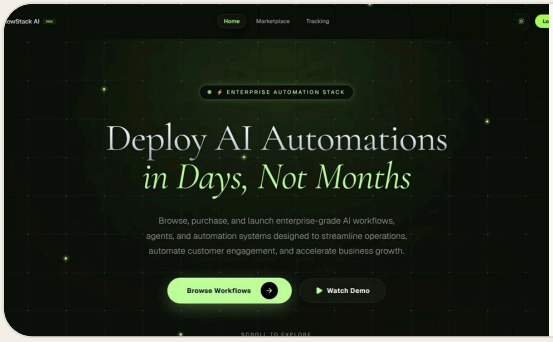

Live products I've shipped

Relay.ai

AI assistant for work: turns meetings and email into tasks, drafts replies, books meetings; nothing is sent without approval.

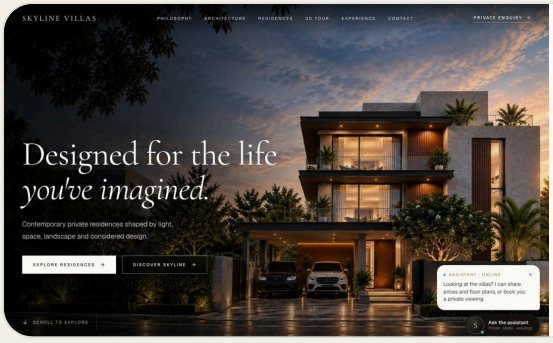

relay-ai-ivory-chi.vercel.app

FlowStack AI

A storefront for ready-made AI automations: browse workflows, see how each works step by step, test before going live.

flowstack-ai-eta.vercel.app

Skyline Villas

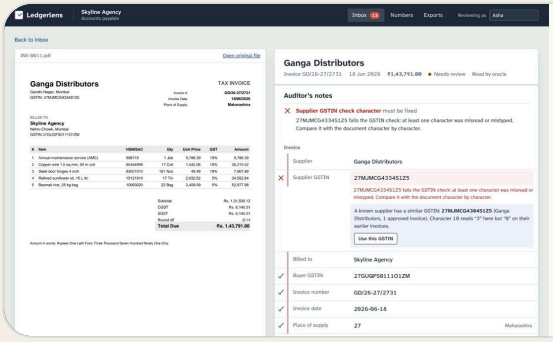

Premium villa-developer website with a rotatable 3D model and an AI sales assistant that books viewings.

skylinevillas-puce.vercel.app

Short product-tour videos of each are in folder 02.

03 · AI ENGINEERING (PYTHON)

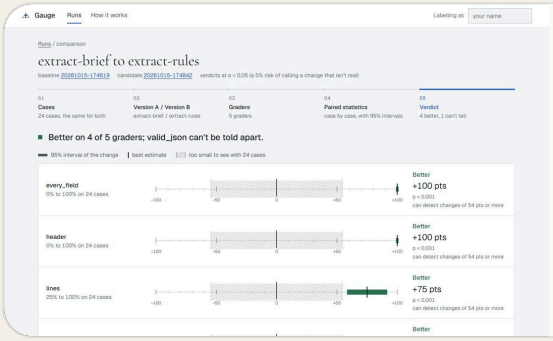

Putting LLMs to work, safely

Ledgerlens

Reads Indian GST invoices with Gemini; fixed GST rules decide what gets paid. 0 of 240 wrong invoices auto-approved.

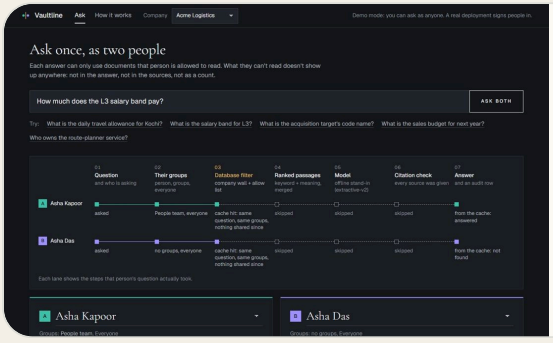

github.com/shripaad1707/ledgerlens

Gauge

Regression testing for AI features: tells you statistically whether a prompt or model change really helped.

github.com/shripaad1707/gauge

Vaultline

Company chatbot that only answers from documents the asker may read. 0 leaks in 972 checks.

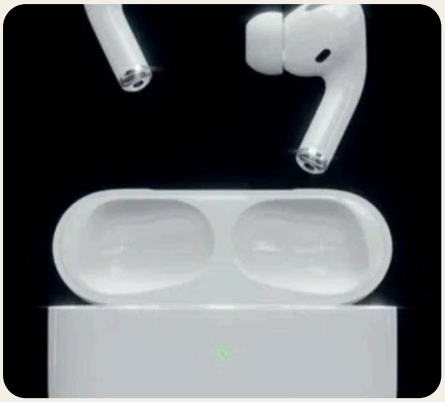

github.com/shripaad1707/vaultline

04 · 3D & VIDEO

Blender renders & UGC-style ads

Product renders and a modern villa modelled in Blender, plus four short-form UGC-style video ads (folder 04) made for Reels and TikTok. All brands shown are concepts.
