SKYLINE HEIGHTS PROPERTIES

Professional Knowledge Base & AI Assistant Reference Document

Internal CRM & AI Automation Reference Version 2.0 Confidential

Prepared for AI-Powered WhatsApp Customer Support System

SKYLINE HEIGHTS PROPERTIES

Knowledge Base 2.0 Internal & Confidential

SECTION 1: COMPANY OVERVIEW

1.1 Introduction to Skyline Heights Properties

Skyline Heights Properties is one of India's premier real estate advisory and development firms, headquartered in Mumbai with regional offices in Pune, Bangalore, Hyderabad, and Delhi NCR. Founded with the vision of redefining luxury living and smart investment in India's most dynamic urban markets, the company has facilitated over 5,000 successful property transactions across six major cities since its establishment.

The firm operates across the full spectrum of real estate — from ultra-luxury penthouses and gated villa communities to mid-segment apartments and high-yield commercial spaces. Skyline Heights Properties combines deep market intelligence, a curated portfolio of verified listings, and a client-first advisory model to deliver an unmatched property experience.

1.2 Vision

To be India's most trusted and technologically advanced real estate company, enabling every client — from first-time homebuyers to seasoned investors — to make confident, well-informed property decisions that enrich their lives and portfolios.

1.3 Mission

To offer a curated, transparent, and personalised real estate advisory experience backed by deep local market expertise, verified property listings, fair pricing, and end-to-end support — from property discovery through registration and beyond.

1.4 Markets Served

- Mumbai Metropolitan Region (MMR): South Mumbai, Western Suburbs, Eastern Suburbs, Navi Mumbai, Thane
- Pune: Koregaon Park, Baner, Hinjewadi, Wakad, Kharadi, Undri
- Bangalore: Whitefield, Sarjapur, Electronic City, Hebbal, Yelahanka
- Hyderabad: Gachibowli, Kondapur, Banjara Hills, Jubilee Hills, Kompally
- Delhi NCR: Gurugram, Noida, Greater Noida, Dwarka Expressway, Faridabad
- Navi Mumbai: Vashi, Kharghar, Panvel, Ulwe, Taloja

1.5 Types of Customers

Primary Customer Segments

- High-Net-Worth Individuals (HNWIs): Seeking luxury villas, penthouses, and premium apartments priced Rs. 2 Crore and above
- Young Professionals (25-38 years): IT/BFSI sector employees looking for 1BHK to 2BHK apartments near tech corridors
- Nuclear Families: Seeking 2BHK to 3BHK apartments or gated community homes with good schools and hospitals nearby
- NRI Investors: Seeking premium residential and commercial investments with strong rental yield and capital appreciation

Capabilities & Features

AI-powered WhatsApp lead capture, qualification & appointment booking for real estate

Key Capabilities & Workflow

- Instant WhatsApp engagement via Meta Business API webhook triggers
- GPT-powered AI agent answers property queries using a custom knowledge base (RAG)
- Automated lead capture form parsing with CRM sync (Airtable / Google Sheets)
- Real-time calendar slot checks with conflict-free appointment booking
- Multi-day automated follow-up sequencing for unresponsive leads
- Built-in spam filtering and lead de-duplication logic

Business Benefits & Impact

- 24/7 instant response improves lead conversion and customer satisfaction
- Reduces manual sales workload by automating qualification and scheduling
- Centralized CRM record-keeping eliminates manual data-entry errors
- Scales to thousands of concurrent conversations with no added staffing
- Shorter sales cycles through faster, automated site-visit bookings
- Secure, compliant messaging via verified WhatsApp Business API

Hi there,

I reviewed your inquiry regarding:

Need AI Automation for Lead Follow-Up

Looking forward to hearing more about your requirements.

— Shripaad
Founder, Elevate Growth Media

Elevate Growth Media © 2026
AI Lead Qualification & Automation Systems

Reply Forward Emoji

Capabilities & Features

AI-driven inbound email lead qualification, scoring and automated follow-up

Key Capabilities & Workflow

- Automatic inbound email parsing and cleanup via Gmail trigger
- AI-based lead scoring and classification (Hot / Warm / Cold) using a GPT agent
- Context-aware, AI-generated replies personalized to each inquiry
- Automatic spam detection and archiving of irrelevant messages
- Automated CRM record creation and status updates in Airtable
- Scheduled follow-up engine with configurable cadence and touch limits

Business Benefits & Impact

- No lead goes unanswered — response time drops from hours to minutes
- Sales effort is automatically prioritized toward hot, high-intent leads
- Reduces manual inbox triage and human error in lead handling
- Consistent, on-brand communication delivered at scale
- Higher nurture-to-conversion rates through persistent automated follow-up
- Scales seamlessly as inbound volume grows, with no added headcount

Assistant

Hello. Welcome to Bright Smile Dental Care. I'm your AI assistant, and I can help you with appointments, treatment information, clinic timings, pricing details, and doctor availability. How may I assist you today?

8:21:53 PM (+00:01:15) 🗣️

Assistant

Sure. I can help with that. Um, could you please tell me your full name and mobile number? Are you a new

8:22:16 PM (+00:24:6.5) 🗣️

Assistant

Thank you, Ram.

8:22:24 PM (+00:32:30) 🗣️

Assistant

No problem, ma'am. Please share your mobile number so I can proceed with your appointment booking for teeth planting and cleaning at six PM.

8:22:28 PM (+00:36:09) 🗣️

Assistant

Thank you, Ram. Uh, are you a new patient? or an existing patient with us. Also, do you have any preferred doctor for your appointments? or should I book with any available doctor?

8:22:42 PM (+00:51:04) 🗣️

Assistant

Thank you for confirming, Ram. Um, just to confirm, uh, you're a new patient and you'd like to book an appointment for teeth planting and cleaning today at six PM with any available doctor. Is that correct?

8:23:00 PM (+01:09:59) 🗣️

User

So I would like to book an appointment for teeth planting and, uh, teeth cleaning as well, at six PM.

8:22:07 PM (+00:15:11)

User

Yeah. My name is Ram.

8:22:21 PM (+00:29:35)

User

and, uh, my

8:22:24 PM (+00:32:54)

User

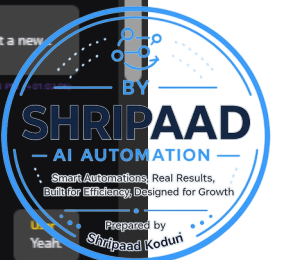

Yeah. Mobile number is seven five six nine zero zero one zero nine one.

8:22:36 PM (+00:44:52)

User

No. Uh, you can book with any other available doctor, and I'm not a new patient. I'm a new patient.

8:22:51 PM (+01:01:07)

Capabilities & Features

AI voice receptionist for inbound calls, appointment booking and customer support

Key Capabilities & Workflow

- Natural, human-like phone conversations via GPT-4.1 and Deepgram transcription
- Inbound call handling for booking, rescheduling, pricing and FAQs
- Real-time calendar availability checks with automatic conflict prevention
- Automated booking confirmations sent via WhatsApp/SMS plus owner alerts
- Structured call logging — transcripts and outcomes saved to Google Sheets
- Configurable multi-assistant setup for different business lines or locations

Business Benefits & Impact

- Eliminates missed calls and after-hours coverage gaps with 24/7 availability
- Lowers receptionist staffing costs while improving response consistency
- Near-instant, natural responses at ~1,150ms average latency
- Detailed call analytics support ongoing quality and performance monitoring
- Fewer no-shows thanks to instant confirmations and reminders
- Effortlessly scales to handle call volume spikes without degraded service

Capabilities & Features

AI-powered invoice extraction, validation and automated delivery workflow

Key Capabilities & Workflow

- Automated invoice/document ingestion from email, Drive, or manual upload
- AI-powered extraction of vendor, line-item, tax and total details
- Built-in validation engine that verifies accuracy and flags discrepancies
- Auto-generated, branded PDF invoices complete with QR pay codes
- Real-time sync to Google Sheets, Zoho Books, Tally and SAP
- Automated client email delivery with invoice summary and payment link

Business Benefits & Impact

- Significant time savings versus manual finance data-entry workflows
- ~99% data-extraction accuracy reduces costly billing errors
- Faster invoice-to-payment cycle improves cash flow predictability
- Centralized financial records across CRM and ERP systems
- Encrypted, secure handling of sensitive financial and client data
- Scales effortlessly from tens to thousands of monthly invoices
